

SENATE  
THE HONOURABLE ASHA SETH  
SENATOR

CANADA

SÉNAT  
L'HONORABLE ASHA SETH  
SÉNATRICE

*I am delighted to extend my sincere support to everyone attending the Canada India Networking Initiative 2014.*

*It is my pleasure to support the Canada India Network Society and all its members for helping to develop innovative programs and networking opportunities that support economic, cultural, and social links between our two countries. I applaud Dr. Arun Garg, Chair and President of CINS, and Dr. David Ostrow, President and CEO of Fraser Health, for their leadership in making this conference possible and bringing the importance of the forum's theme, Health and Civil Society, to the forefront.*

*Our government believes that civil society organizations are crucial partners in our communities and at the global level. These organizations make important contributions to planning, implementing and monitoring of national and international health strategies. CINI 2014 is an essential component for creating a platform where Canada and India can be partners in health to ensure that civil society institutions and relevant policies are in place for mutual development.*

*On behalf of the Senate of Canada I once again express my support for this cause and I wish many successes in the effort to make a healthier world.*

OTTAWA  
2014

A handwritten signature in black ink, appearing to read 'Asha Seth'.

*The Honourable Asha Seth*
