Canada India Network Initiative 2018

As Mayor of the fastest growing City in British Columbia, I am excited that CINI 2018 will be taking place in Surrey, British Columbia.

Building on the success of CINI 2010 and CINI 2014, this event will continue to reinforce the strong relationship between BC and India. From economic development to advances in the health sector, significant connections are directly resulting in benefitting all parties associated with this wonderful initiative.

This year's focus will be to create links between both nations that will ensure growth in sustainable health, social innovation and technology.

I would like to take this opportunity to encourage you to take part in the Canada India Networking Initiative 2018 as the event will greatly benefit from your insight.

We will continue to work together and strengthen the relationship between India and BC and events such as this are an excellent example.

I would like to commend the Canada India Network Society, Fraser Health, and Simon Fraser University for their hard working in making this event a possibility.

I hope to see you in beautiful Surrey, British Columbia for this informative and worthwhile event.

Sincerely,

A handwritten signature in black ink that reads "Linda Hepner". The signature is written in a cursive, flowing style.

Linda Hepner
Mayor
City of Surrey
